

As a four time Olympian I understand that swimming techniques and philosophies are always changing. At the **Swimming Stars™** Learn-to-Swim Schools, parents can feel assured that every swimming instructor will stay at the forefront with regards to technique, teaching philosophies and international best practice Learn-to-Swim principles.

Swimming can have many positive outcomes, least of all being an essential life skill. Learning to swim well from an early age provides lifelong benefits. At the **Swimming Stars™** Learn-to-Swim Schools we believe that with appropriate training methods, consideration and care, every child will shine!

I feel passionate about teaching children how to swim and look forward to sharing my experience, ideas, knowledge and above all my love for the sport of swimming with the youth of South Africa.

Dream BIG!
